## Low Income Transportation Voucher Program

The Low Income Transportation Voucher Program is a subsidy program funded by Nevada County Community Service Block Grant to assist clients with limited income in Western Nevada County with the cost of transportation. The vouchers provide considerable savings on a one-way fare. Books of (20) \$1.00 vouchers are available for \$2.00 per book, with donations of more than \$2.00 gratefully accepted. The cost of a one-way trip within the ADA corridor is two \$1.00 vouchers.

Voucher books can be acquired through our office. You may acquire 2 (20) voucher books at a time. When you have used 10 out of your 2<sup>nd</sup> book you can get 2 more books while they are available. Vouchers may be used for regular transportation programs provided by Telecare *excluding charters*. The vouchers expire on December 31 of the current year, which is printed on the front cover of the voucher book.

How do you get a voucher book? Call the Telecare office for a quick phone interview. Vouchers are available to Western Nevada County residents who meet the low income criteria.
